Table of Contents A – Z

A	Page	A	Page	C	Page
ABSOLUTE		ABSOLUTE DIGIMATIC		Calipers	110-143
• Built-in micrometers	104	• Quick external screw-type micrometer	31	Calipers	
• Dial indicators with base for depth measurement	215	• Quick external screw-type micrometer for measuring crimp heights	34	• Ceramic test set	308
• Linear gauges LGD-M	249	• Quick external screw-type micrometer with offset measuring surfaces	34	• Steel test set	305
• Linear gauges	248 - 249	• Quick external screw-type micrometer with adjustable measuring force	32	• with reading free from parallax	139
• Linear gauges LGD	248	• Quick external screw-type micrometer with adjustable measuring force and disc-shaped measuring surfaces	33	• with reading free from parallax "DIAMOND"	140
• Linear height gauge "QM height"	160-161	• Quick external screw-type micrometer with disc-shaped measuring surfaces	33	• with fine adjustment	137
• Linear scale type AT 500	332	• Quick thickness gauge	210-212	• with carbide measuring surfaces	138
• Measuring methods	109	• REPRO-FIX clamping system	451	• with moment adjustment	137
• Super caliper	113	• Scribing and marking-off plates	295	• with round depth gauge	136
ABSOLUTE DIGIMATIC		• Scribes and scriber holders	157	Carbide wear gauge sets	310
• Analogue dial indicators	179-199	• Solar calipers	113	Centring microscope CF 10	374
• Analogue dial indicators small	180-182	• Special purpose calipers	117-130	Centring microscope CF 20	375
• Analogue dial indicators miniature	179	• Squares	284-285	Cera block individual ceramic gauge blocks	307
• Analogue dial indicators with one pointer rotation	189-193?	Adjustable parallel supports	294	Cera block ceramic gauge blocks	306
• Analogue dial indicators standard sizes	183-188	Adjustable ratchet gauges	209	Ceramic level	317
• Analogue dial indicators with large scale	194-196			Ceramic test set	308
• Analogue dial indicators with rear spindle	197			Ceramic wear gauge block sets	308
• Angle plate with clamping slots	296			CNC contour measurer	
• "BOREMATIc" three-point internal micrometers	86-87			"Concracer CV-3000 CNC"	367
• Built-in caliper	325-328			CNC roundness tester	
• Built-in caliper IP-66	325			Roundtest RA H-5000 CNC"	369
• BORE GAUGES	231			CNC roundness tester	
• Calipers	110-130			"Roundtest RA-2100 CNC"	368
• Caliper for large measuring ranges	114			CNC surface and contour measurer	
• Calipers with rounded measuring surfaces	116			"Formtracer CS-5000 CNC"	368
• Caliper with knife-shaped/rounded measuring surfaces	115			CNC surface and contour measurer	
• Calipers of protection class IP-66 and IP-67	110			"Formtracer SV-C 3000 CNC"	367
• Calipers standard form with data output	112			CNC surface roughness tester	
• Calipers standard form without data output	111			"Surfest SV-3000 CNC"	366
• Depth gauges	148			Coating thickness gauges	
• Dial indicators	167-178			"DIGI-DERM"-1100/2100	322
• Dial indicators ID-B and ID-N	177			Coating thickness gauges "MINI-DERM"	323
• Dial indicators ID-C	168-173			Coating thickness gauges	
• Dial indicators ID-S	167			"MINI-DERM-1000"	324
• HDS height gauges and scribes	151-152			Cold-light illuminator	384
• ID-F dial indicator	174-175			Combination square	281
• ID-U dial indicator	178			Combined surface and contour measurer "Formtracer"	369
• Interchangeable ball inserts for series 324	53			Contour measurer "Concracer CV-1000"	362
• Interchangeable measuring inserts	57			Contour measurer "Concracer CV-2000"	362
• Interchangeable measuring inserts for universal female thread dial indicators	206			Contour measurer "Concracer CV-3000"	363
• "OPTI-FIX" clamping system	412-413			Contour measurer "Concracer CV-4000"	363
				Connectors for long gauge blocks	310
				Consumables	458-459
				Coordinate measuring machines	
				• CARBapex	449
				• CARBstrato	449
				• Crysta-Apex C	441
				• Crysta-Plus M	440
				• LEGEX	445-447
				• MACH	448
				• STRATO	444

Table of Contents

0	Page	1	Page	1	Page
Series		Series		Series	
0 Analogue dial indicators, miniature design	179	118 External screw type micrometers with deep throat	59	155 Telescopic gauge set	240
1 Analogue dial indicators small design	180-182	119 External screw type micrometer for measuring sheet and strip metal	60	156 Holder for external screw type micrometers	68-69
1 Analogue dial indicators with pointer rotation	190-192	121 "DIGIMATIC" bench micrometer	61	157 Optical glass parallels	67
1 Analogue dial indicators with rear spindle	197	122 External screw type micrometers with small measuring surfaces	50	158 Optical glass flats	67
101 External screw type micrometers small design	35	123 External screw type micrometers with disc-shaped measuring surfaces	48	160 Workshop calipers for internal measurements	141
102 External screw type micrometers stable design	35	124 Interchangeable ball inserts for series 324	53	164 "DIGIMATIC" built-in micrometers	102
102 External screw type micrometers stable design and friction thimble	35	126 External screw type micrometers for measuring the pitch diameter of threads	52	164 Electronic built-in micrometer	105
102 External screw type micrometers with ratchet thimble	36	126 Measuring inserts for measuring the pitch diameter of threads	52	164 Digital display units for built-in micrometers	105
102 External screw type micrometers heavy-duty workshop design	37	128 Depth micrometers	70	167 Standards for external screw type micrometers	65
102 External screw type micrometers with large ratchet thimble	37	129 Depth micrometers with interchangeable measuring inserts	70	169 External screw type micrometers with non-rotating spindle and disc-shaped measuring surfaces	49
103 External screw type micrometers lightweight workshop design	38	133 Internal micrometers fixed type	73	170 Dial indicator tester	242
103 External screw type micrometers lightweight workshop design as a set	39	137 Internal micrometers extension-rod type	74	170 Dial indicator tester "i-Checker" tester	244
104 External screw type micrometers special design	40	139 Internal micrometers extension-rod type	75	172 Measuring projector PH-A14	402-403
105 External screw type micrometers for large measuring ranges	41	140 Internal micrometers extension-rod type for large measuring ranges	76	172 Measuring projector PH-3515 F	404-405
106 External screw type micrometers with non-rotating spindle	39	141 Internal micrometers in extension-rod type for deep bores	76	174 „Linear Scale“ digital Display unit type KA-counter	338-339
107 External screw-type micrometers for series tests	54	143 External screw type micrometers with measuring jaws	61	176 Measuring microscope „TM-500“	380-383
110 Built-in micrometers with non-rotating spindle	90	145 Internal micrometers with measuring jaws	77	176 Measuring microscopes MF-A model	386-387
111 External screw type micrometers with offset measuring surfaces	43	147 External screw type micrometers for measurements on food cans	62	177 Steel and ceramic setting rings	78
112 External screw type micrometers with pointed spindles	44	147 External screw type micrometers with extra-flat throat	63	178 Surface roughness tester Suftest "SJ-201 P/S/PR"	352-358
112 External screw type micrometer for the measurement of crimp heights	51	147 External screw type micrometer with small throat	63	178 Surface roughness tester Surftest "SJ-400"	359-360
113 External screw type micrometers for tolerance comparisons	57	148 Built-in micrometers for fine adjustment	91	179 Coating thickness gauges "DIGI-DERM"-1100/2100	322
114 External screw type micrometers with V anvil	45	148 Miniature built-in micrometers	92	179 coating thickness gauges "MINI-DERM" 323	
114 External screw type micrometers for five-fluted measurements	46	148 Small built-in micrometers with large scale thimble	93	179 Coating thickness gauges "MINI-DERM"-1000	324
115 External screw type micrometers with curved measuring surfaces	46	148 Built-in micrometers with floating zero adjustment	94	179 Wet film thickness gauge	324
116 External screw type micrometers with non-rotating spindle and interchangeable measuring inserts	57	149 Built-in micrometers standard	95	180 Combination square	281
116 Interchangeable measuring inserts	57	150 Built-in micrometers standard	96	181 Double V blocks hardened	292
117 External screw type micrometers with interchangeable anvil	58	151 Built-in micrometers with/without ratchet	97	181 Double V blocks magnetic	293
		152 Built-in micrometers with 1 mm spindle pitch	98	183 Precision magnifier	372
		152 Built-in micrometers with bidirectional reading	98	183 Pocket magnifiers	373
		152 Built-in micrometers for x/y travel	99	187 Universal bevel protractor	281-282
		152 Built-in micrometers with large scale thimble	99	187 "DIGIMATIC"-Universal-bevel protractor	282
		153 Built-in micrometers with non-rotating spindle	100	192 Height gauges and scribes with counter and dial indicator	153
		154 Small hole indicator set	240	192 "DIGIMATIC" HD-A height gauges and scribes	154
				192 "DIGIMATIC" HDM-A height gauges and scribes	155
				193 External screw type micrometers with counter	42
				193 External screw type micrometers with counter	42
				197 Built-in micrometers with non-rotating spindle and 1 mm spindle pitch	101

5	Page	5	Page	7	Page
Series		Series		Series	
516 External screw type micrometers test set made from steel	305	542 Linear gauge LGF	250	7 Quick thickness gauge	213-214
516 "Cera Block" gauge blocks sets made from ceramic	306	542 Linear gauge SLIM HEAD A LGB	251	7 Dial indicators with base for depth measurement	215
516 Ceramic wear gauge block sets	308	542 Linear gauge LGE	252	7 Measuring stands standard design	268-269
516 Caliper test set made from ceramic	308	542 Linear gauge LG/LGM	253	7 Magnetic jointed stand	275-278
516 External screw type micrometer test set made from ceramic	308	542 "Laser Hologage" LGH	254-255	700 Quick thickness gauge "QUICK MINI"	214
516 Gauge blocks sets made from steel and ceramic	309	542 Linear gauge LGB	255	7000 Setter and assorted thrust pads	205
516 Maintenance set	310	542 Linear gauge SLIM HEAD A LGK	251	7050 Vertical measuring tables	207
516 Carbide wear gauge sets	310	542 DIGIMATIC EC display	257	7060 Horizontal measuring table	208
518 Linear height gauge "Linear Height" LH-600 C/CG	158-159	542 Linear gauges EG display	258	7823 Tool kit for repairs on dial indicators	205
518 ABSOLUTE linear height gauge „QM-Height“	160-161	542 Linear gauge EF display	259		
519 Mμ checker electronic length measuring device	261-264	542 Linear gauge EV display	260		
519 Measuring stands with high column	268	543 Linear height gauge LH-600 C/CG	158-159		
521 Dial indicator tester	243	543 ABSOLUTE DIGIMATIC dial indicators	167-178		
522 Calipers with reading free from parallax "DIAMOND" design	140	543 ABSOLUTE DIGIMATIC dial indicators ID-S	167		
523 Passameter with dial indicator	55	543 ABSOLUTE DIGIMATIC dial indicators ID-C	168-173	810 Hardness testers Rockwell/ Super Rockwell/Brinell Wizhard type	417
523 Passameter with high-accuracy dial indicator	55	543 ABSOLUTE DIGIMATIC dial indicator ID-F	174-175	810 Hardness testers ROCKWELL type AR/ARK	418
524 High-accuracy dial indicator "HICATOR"	198	543 Dial indicators ID-H	176	810 Hardness testers ROCKWELL, SUPER-ROCKWELL ATK type	419
524 High-accuracy dial indicator "Signal-HICATOR"	199	543 ABSOLUTE DIGIMATIC dial indicators ID-B and ID-N	177	810 Hardness testers Micro-VICKERS type HM	420
526 Precision bore gauges	229-230	544 Laser scan micrometers	343-349	810 Hardness tester VICKERS type AVK	421
527 Depth calipers	145	544 Laser scan micrometers LSM-902	346	810 Hardness testers VICKERS + Brinell type HV	422
527 Depth calipers with hook	146	544 Laser scan micrometers LSM-9506	345	810 „HARDMATIC“ portable hardness testers	425-426
527 Depth calipers with dial indicator	147	544 Laser scan micrometers Display units	346-348	810 „HARDMATIC“ HH-411 Portable hardness tester	427
528 Precision squares	283	546 Spring balance	241	811 Portable Shore hardness testers	423-424
530 Calipers	136	547 ABSOLUTE DIGIMATIC quick thickness gauge	210-212		
530 Calipers with round depth gauge	136	547 ABSOLUTE dial indicators with base for depth measurement	215		
530 Calipers with carbide measuring surfaces	138	550 ABSOLUTE DIGIMATIC calipers with rounded measuring surfaces	116		
531 Calipers with moment adjustment	137	551 ABSOLUTE DIGIMATIC calipers with knife-shaped/rounded measuring surfaces	115		
532 Calipers with fine adjustment	137	552 "DIGIMATIC" Workshop Calipers ultra-lightweight Composite design	132-134		
533 Workshop calipers for internal and external measurements	142	552 Series 522	140		
534 Workshop calipers with long measuring jaw	143	560 Calipers with reading free from parallax	139	901 Granite plates	297
536 Special calipers	118-131	568 Three-point internal micrometer "ABSOLUTE DIGIMATIC BOREMATIC"	86-87	901 Accessories for granite plates	297
536 Left-handed calipers	138	570 ABSOLUTE DIGIMATIC-HDS Height gauges and scribes	151-152	901 Underframe for granite plates	298
539 "Linear Scale" digital length measuring system type AT 102	334-335	571 ABSOLUTE DIGIMATIC depth calipers	148	901 Tool cabinet for granite plates	298
539 "Linear Scale" digital length measuring system type AT 115	333	572 ABSOLUTE DIGIMATIC built-in calipers	325-328	902 Scribing and marking-off plates	295
539 "Linear scale" digital length measuring system type AT 112 F	336	572 ABSOLUTE DIGIMATIC built-in calipers IP-66	325	906 Angle plate with clamping slots	296
539 "Linear Scale" digital length measuring system type AT 715	337	573 ABSOLUTE DIGIMATIC special calipers	117-130	908 Adjustable parallel supports	294
542 Linear gauges	245-260	575 ABSOLUTE DIGIMATIC Dial indicator ID-U	178	908 Hardened parallel supports	295
542 Linear gauge probes	245-256	575 Linear gauge LGS	249	910 Pair of V blocks	292
542 Linear gauge display units	257-260			911 Four-recess V block pair	293
542 ABSOLUTE linear gages	248-249			912 Measuring tables made from hard stone	274
542 ABSOLUTE linear gages LGD	248			913 Measuring stands standard design	270

Optional accessories for height gauges and scribes	156-157
Optional accessories for dial indicators	200-204
Probe system MPP-300Q	446
Probe system MTP-2000	446
Scribes and scriber holders	157
Rotating table MRT-320	446
Standard overlay charts	409
Surface roughness testers Surftest "SV-2000"	361
Surface roughness testers Surftest "SV-3000/SV-3000 3D"	361
Parallel and flatness testing	27
Patent numbers	464
Pneumatic drive for linear gages	256
Software system MCOSMOS	450
Software system QVPAK Type DL-1000/DL-1000 M	437
"DIGIMATIC" Data transmitters	23
USB interface "DIGIMATIC"	19
Vision measuring machine NANOCORD	436
Vision measuring machine QUICK IMAGE	430
Vision measuring machine ULTRA QUICK VISION	434
Vision measuring machine UMAP VISION systems	435
Vision measuring machines QUICK SCOPE CNC	431
Vision measuring machines QUICK SCOPE manual	431
Vision measuring machines QUICK VISION APEX / HYPER QUICK VISION	432
Vision measuring machines QUICK VISION-ACCEL	433
Vision measuring machines QUICK VISION-ELF	432
Vision measuring machines QUICK VISION-HYBRID	433
